CORE VALUES

Integrity, Professionalism, Excellence, Compassion

OUR DEPARTMENTS

Applied Sciences
Health Records and IT
Health Sciences
Social Sciences
Counselling Psychology
Human Nutrition and Dietetics
Orthopaedic Medicine

MESSAGE FROM THE DIRECTOR

JFCM envisions a future where all people are able to realize their highest possible health and well-being. We pursue this vision by advancing collaborative research and education that improves health and well-being of individuals and their communities.

JFCM members span is departmental and our many partners include public agencies, community and faith

based organizations, employers, health payers and diverse healthcare delivery systems. Together, our research and training programs are far-reaching and reflect the rich diversity of our institution, of greater Kenya and African Nations.

JFCM values the complementary strengths of diverse people, organization and communities, investing our time and resources in partnership capacity building, workforce development and strategies to catalyze, support and enhance many different forms of research, all in an effort to advance population health and health equity.

With the Covid-19 we have learnt that no amount of research and development is ever enough. The world economy has been slowed down due to the lack of expertise that was available. This defines the existence of JFCM College to be a center of excellence producing health science protégés to assist the entire communities. And as usual, we'll never stop saying "This is where it starts".

It is also important to remember that education is not just a process of giving knowledge for a future job but a life-long process which creates an understanding of moral and ethical values to guide one's life in the right path.

I want to welcome you to JFCM and encourage you to get involved. Please explore our website and contact us to learn more about the many ways our institution can help you advance health equity here in Kenya and across the globe.

"Do the work with intention not because of compulsion." With all my love, best wishes and blessings.

God Bless JFC Munene College of Health Sciences.

Madam Cecilia Ochol
Director, JFC Munene College
of Health Sciences

MESSAGE FROM THE PRINCIPAL

JFC Munene College of Health Sciences is a premier middle level tertiary institution, registered and accredited by Ministry of Education through TVETA. We are also accredited by Kenya Nutrition and Dieticians Institute (KNDI). We offer quality programs in Level 6 (Diploma) Level 5 (Craft) and Level 4 (Artisan) in Medical and Health related courses. We also have short courses that take a period of 8 weeks.

I take this opportunity to welcome you to explore our diverse programs, that will expose you to competency-based curriculum developed by the Ministry of Education. We are more focused on skills development while at the same time imparting knowledge that gives our graduates a competitive edge against their peers in the market.

Quality is our definition in every aspect, right from the selection of students for admission, training and practice, skilled work force and serene environment for learning. Our students are natured to understand the global challenges, exposed to research from the best. We have collaborative Memoranda with research organization and teaching hospitals to maximize on quality of training.

We have a robust extracurricular department and we focus on growing students talents. We promise you our utmost support. Our ultimate goal is to provide you with a variety of experiences during your stay at JFC Munene College of Health Sciences.

We look forward to welcoming you to JFC Munene College of Health Sciences

**Mr. Renox Onyango,
Principal, JFC Munene College
of Health Sciences**

MESSAGE FROM THE REGISTRAR

Welcome to JFC Munene College of Health Sciences.

You have come to the right place in pursuit for more knowledge, we promise to transform you into better individual as we mold you into the career of your choice. Our environment and team is well suited and prepared to ensure we provide you with a variety of experiences during your stay at JFC Munene College of Health Sciences.

JFC Munene college has fully embraced the competency based-curriculum where our approach to training is skills based, all our programs are hands on and our students spend most of their time in the laboratory and workshops for their practical.

Quality is our definition in every aspect of training, right from selection and admission of students, training and practice, research and innovation. We also involve our students in community service. Every student must participate in community service programs where they give services to the community. This goes a long way to train our graduates on the values of volunteerism and service as opposed to employment for money. This program has assisted in bringing the best out of our graduates and inspired some of them to start community-based organizations that are assisting their communities.

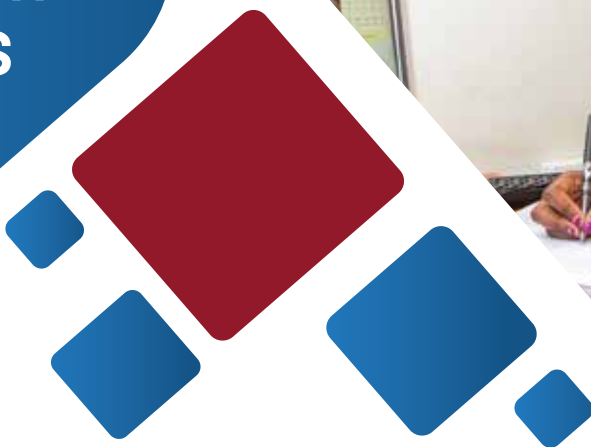

At JFC Munene college we uphold high integrity for both staff and students, therefore our emphasis on discipline is unrelenting. while students have their own space but with requisite checks and balances.

The office of the registrar implements college policies and procedures. The office's mission is to ensure the overall college mission is achieved which is to train knowledgeable, skilled, capable and compassionate health professions who provide value-based and patient centered care in their communities.

ALL THE BEST IN YOUR JOURNEY TO CREATE THE BETTER VERSION OF YOU.

**Madam Beverline Manjeri,
Registrar, JFC Munene College
of Health Sciences**

DEPARTMENT OF HEALTH SCIENCES

COMMUNITY HEALTH AND DEVELOPMENT

Is a program to equip social development work trainees with the necessary knowledge, skills, attitudes and experiences that will enable them to participate effectively in implementation of national social development policies.

Skills Acquired in Community Health and Development

- Professional research skills.
- Health communication skills.
- Ability to advocate for local health.
- Ability to provide counselling support and follow-ups
- Project management

Course Requirements

LEVEL	DURATION	GRADE	FEES PER TERM
Diploma	2 Years	C-	25,000
Craft	1 Year	D	18,000
Artisan	6 Months	D-	15,000

Examination Body

Kenya National Examination Council (KNEC)

Career Opportunities

- Peer counsellor.
- Health interpreter.
- Community health worker.
- Health coach.
- Family advocate

COMMUNITY HEALTH AND HIV/AIDS MANAGEMENT

This course is aimed at producing a health worker who is capable of addressing health issues on a bottom-up approach like from community to global perspective and critically analyze the related health problems with a view of proposing possible solutions.

Skills Acquired in Community Health and HIV/AIDS Management

- They will be able to participate in the management of community health and HIV/AIDS projects.
- Appreciate the role of community organization in community and health and HIV/AIDS management.
- Promoting ethical practices and integrate gender in community development.
Appreciating the role of communication in the community.
- The students will gain self-entrepreneurial skills in national development.
- They will also understand the role of HIV/AIDS in the development of the organization goals.
- Understand the global trends in HIV/AIDS and situations.
- They will also be able to demonstrate an understanding of innovative ways of being self-reliant.

Course Requirements

LEVEL	DURATION	GRADE	FEES PER TERM

HEALTH SERVICE SUPPORT

This course is designed to equip an individual with competencies required to participate in provision of health services support in a hospital set up. It entails Participating in infection prevention and control; performing hospital housekeeping procedures and executing supportive store procedures

Examination Body
TVET/CDACC

Skills Acquired in Health Service Support

- Provide First Aid Services
- Apply Medical-Legal Ethics
- Demonstrate Knowledge Of Common Diseases
- Demonstrate Knowledge Of Organization Of Health Facilities
- Apply Medical Terminologies

Course Requirements

LEVEL	DURATION	GRADE	FEES PER TERM
Craft	1 Year	D	25,000
Artisan	6 Months	D-	15,000

Career Opportunities

- Participate in Infection Prevention and Control
- Perform Hospital Housekeeping Procedures
- Perform Outpatient and Inpatient Supportive Services
- Support Hospital Catering Services
- Perform Mortuary Techniques
- Support Hospital Store Procedures

Examination Body

Kenya National Examination Council

EMERGENCY MEDICAL TECHNICIAN

An Emergency Medical Technician provides out of hospital emergency medical care and transportation for critical and emergent patients who access the emergency medical services (EMS) system. The EMT has the basic knowledge and skills necessary to stabilize and safely transport patients ranging from non-emergency and routine medical transports to life threatening emergencies

Skills Acquired in Emergency Medical Technician

- Listening skills
- Ability to assess the situation and be a ware of what's happening.
- Flexibility
- Problem solving skills.
- Compassion

Career Opportunities

- Hospitals
- NGOs
- Medvac facilities

Course Requirements

Craft	1 Year	D-	18,000

Examination Body: KCMT

DEPARTMENT OF APPLIED SCIENCES

BIOTECHNOLOGY

Biotechnology is a program to equip trainees on the use of biology to solve problems and make useful product. Biotechnology improves medical treatments, contributes towards conserving resources, can help improve plant and human health.

Skills Acquired in Biotechnology

- Tissue Culture, which involves the growth of cells.
- Polymerase Chain Reaction, a technique used to make many copies of a specific DNA region.

Gel electrophoresis, which is a widely used technique in molecular biology, biochemistry, genetics etc.

- Western Blot, which is used to prove different properties of proteins.
- Molecular Gene Cloning, which is a molecular biology technique that is used to assemble molecules

Career Opportunities

- Drug and pharmaceutical research.
- Public funded laboratories.
- Environmental control.
- Food processing.
- Bioprocessing industries.

Course Requirements

LEVEL	DURATION	GRADE	FEES PER TERM
Craft	2 Years	C-	19,500
Artisan	1 Year	D+	18,000

Examination Body

Kenya National Examination Council (KNEC)

Examination Body
TVET/CDACC & KNEC

MEDICAL ENGINEERING

Is a course tailored to produce individuals who are hands-on in the development, testing and implementation of safe and effective technology solutions for the health and medicine industry.

Skills Acquired in Medical Engineering

- Careful measurement and analytical skills.
- Good attention to detail.
- A good eye for design.
- Creative and technical ability to turn the design into products.
- Evaluation of medical devices.
- Ability to empathize with patients

Career Opportunities in Medical Engineering

- Research organizations.
- Manufacturers.
- Government agencies.
- Medical centres

Craft	1 Year	D+	18,000

SCIENCE LABORATORY TECHNOLOGY

A program that focuses on chemical and biological experiences that cover various applications in biology, biochemical, water, environment, forensic, petrochemical, and agricultural sciences areas

Skills obtained from studying Science Laboratory Technology

- Use of biological tools, chemistry tools and physics tools correctly in techniques including understanding the routines of an industrial laboratory.
- Prepare accurate laboratory reports as well as laboratory record work.
- Understanding the general ecological interrelationships of organisms.
- Understanding plants, animals in terms of their care breeding, diseases affecting them.

Course Requirements

LEVEL	DURATION	GRADE	FEES PER TERM
Diploma	2 Years	C-	20,000
Craft	1 Year, 1 Term	D	18,000

Career Opportunities

- Pathologist.
- Laboratory technician.
- Chemical technician.
- Clinical laboratory scientist.
- Nuclear medicine technologist

Examination Body
TVET/CDACC & KNEC

APPLIED BIOLOGY

A course aimed at providing the trainee with knowledge and skills in biological process and their application. The course makes the trainee aware of the interrelationship between organisms in nature and the modern manipulation of micro-organisms in the developing industrial world.

Skills Acquired studying Applied Biology

Physiological applications on living organisms

Understanding the routines of a medical and industrial micro-biological laboratory.

Mastering of parasitological and immunological techniques in a laboratory.

Observe safety measures in a laboratory.

Prepare accurate laboratory reports as well as supervisory laboratory work.

Apply acquired knowledge and skills in performing various biological techniques including application of drugs in diagnosis and caring of certain diseases.
Preparation of operating theatre room

Career Prospects in Applied Biology

Lab technicians.

Science teachers.

Field biology.

Technical writers

Pharmaceutical sales representatives

Diploma	2 Years	C-	21,000

DEPARTMENT OF HEALTH RECORDS AND INFORMATION TECHNOLOGY

HEALTH RECORDS WITH IT

Health records is a program that entails organizing and managing health information data in accurate, accessible and secure manner in both paper and in the electronic systems. Use of Information technology to keep records of a patient information for data bases and also to maintain their medical history.

Skills Acquired in Health Records and IT

- Customer service.
- Ability to write clear reports.
- Well-developed communication skills.
- Computer documentation skills.
- Data entry management skills.
- Coding
- Data analysis

Prospective Fields of Employment

- Hospitals.
- Medical practices.
- Clinics.
- State or local health department

Course Requirements

LEVEL	DURATION	GRADE	FEES PER TERM
Diploma	3 Years	C	25,000
Craft	2 Years	C-	20,000

**Examination Body
KNEC & AMRO**

INFORMATION COMMUNICATION TECHNOLOGY

ICT is a term for Information Communication Technology, which refers to all communication technologies including the internet, wireless networks, cellphones, computers, video conferences, social net networking and other media application. ICT is an industry in itself which employs the use of computers, networks, software and other digital or electronic devices for managing and communication information. Examples of ICT include e-books, email, chat and distance learning programs

Examination Body
TVET/CDACC & KNEC

Skills Acquired in ICT Course

- Coding and programming skills.
- Computer science and web development.
- Deepened technology and how it works.
- Ability to converse with people through various channels of technology
- Preparation of operating theatre room

Career Opportunities

- Computer service technician.
- Cyber security specialist.
- Data analyst.
- Hardware engineer.
- Multimedia developer.
- Business analyst.

Course Requirements

LEVEL	DURATION	GRADE	FEES PER TERM
Diploma	1 Year	C-	22,000
Craft	6 Months	D	15,000

DEPARTMENT OF HUMAN NUTRITION AND DIETETICS

HUMAN NUTRITION AND DIETETICS

Is a course whose objective is to equip the trainees with relevant knowledge, skills, attitudes and experiences that will enable them to contribute to the improvement of health care using nutrition and dietetics.

Skills obtained from studying Dietetics and Nutrition

Counsel patients on nutrition issues and healthy eating habits.

Develop meal and nutrition plans, taking both clients preferences and budgets into account.

Evaluate the effects of meal plans.

Create educational materials about healthy food choices.

Contribute to the latest food and nutritional science research

Preparation of operating theatre room

ACCOMMODATION

Students learn not only to live with others and share things, but also learn to live on their own. Living alone and independently is a habit or a practice that every individual must grow into. Therefore, student accommodation helps one gain emotional independence and trains one to sustain independently. In our hostels our students are also trained on Intrapersonal skills and on how to handle personalities.

FEATURES

- 24 Hour security and clean water supply
- 3 by 6 feet double decker beds with comfortable mattress
- Unlimited FREE internet connectivity (WI-FI) in the facility
- Spacious personal study areas as well as group discussion common areas

EXTRA-CURRICULAR ACTIVITIES

SPORTS

Sports is a vital program in the growth of a human being. Outdoor and indoor games help in cognitive strengths and as well assist the trainees in understanding and explore their talents at their level best.

STAFF FOOTBALL TEAM

STUDENTS FOOTBALL TEAM

CULTURAL WEEK

CULTURAL WEEK 2022

Cultural week is quarterly event that happens during the last quarter of the every Year ,It's a long week event that brings students together and consists on a beehive of activities that are competitive ,Eduacative and share of cultural, Religion and traditional experience.

Mr and Miss JFC pageant is part of the winding up of the whole week's activities with very stiff competition from the models.

SOCIETIES AND CLUBS

One of the major advantages of joining a College chapter is the positive impact it will have on a student professional and social life. Students could learn a new language, join a College chapter, explore a new sport, or join a society that matches their interests and Skills, JFC college of Health Sciences has a few chapters that students are actively involved:

- Redcross Chapter
- Rotaract Chapter
- Drama Chapter.
- Entrepreneurship Chapter.
- Environment Chapter.
- Christian Union and Young Catholic Association.

COMET (COUNSELING MENTORSHIP AND TRAINING)

This is a program by the college that allows industry players to visit the college and run mentorship programs on real life issues as well as give experiences that assist the students cope with life issues, raise their self esteem as well as improve their moral compass from mentors.

COMMUNITY SERVICE

Engaging in community service provides students with the opportunity to become active members of their community and has a lasting, positive impact on society at large. Community service or volunteerism enables students to acquire life skills and knowledge, as well as provide a service to those who need it most. Our students have actively participated in community service program and all the places we have received positive response from the supervisors which also in return has given the students a stepping stone and experience in the future employability world.

OFFICE OF THE MARKETING MANAGER

On behalf of JFC MUNENE COLLEGE OF HEALTH SCIENCES , I am delighted that you are about to consider or have considered to join one of the best medical training college in the country. Looking for the favorite school for your son or daughter might be a tedious task but as JFCM we are glad to inform you to search no more. Here we nurture graduates who have not only academically prospered but also whose professional excellence is commendable. Our courses are highly competitive and are registered with respective examination boards namely: KNEC, ABMA, KNDI, AMRO and TVETA/CDACC. This ensures credibility of our courses in the current job market.

JFC MUNENE COLLEGE OF HEALTH SCIENCES has been in existence since 2019. The College endeavors to produce competency healthcare professionals with the creation of leadership the strategy that builds essential skills and behaviors of student leaders and invests in its culture which drives positive outcomes. JFCM offers community service, clinical practice and a direct attachment platform for all our students across ALL departments. The college is committed to developing students with high academic achievement, intellectual curiosity and strong moral character in such a way that, they are prepared to tackle any professional challenge in laid ahead in the medical employment sector. This is well catered for by adhering to our mission, 'training knowledgeable, skilled, capable and compassionate health professionals who provide valued based and patient centered care in their communities.'

Beyond teaching our students on how to master academic disciplines, we engage and fully support other co-curricular activities like sports, Karate , Music and drama whereby we have given our students room to realize their talents. As you begin the application process for your daughter and son, they will meet the best and highly competent, diligent, supportive, efficient, qualified and friendly lecturers, administrators and non-teaching staff who have captured the mission and vision of the school and always employ them during their day to day activities. This makes the services offered to our parents and students be of top notch. We therefore encourage you as the parents of our beloved students to always schedule some time and come experience JFC Munene college of Health Sciences for yourself.

We have taken care of working students by introducing distance learning, Online classes, school based, weekend and evening classes. We have a spacious and well-furnished hostel with proper balanced diet where our students are accommodated at an affordable fee which is payable in monthly or termly basis.

Finally, we cordially extend our invitation to the employers looking for professionally nurtured graduates to contact our great college for reference to personnel that are highly disciplined and qualified to handle any challenge tabled before them.

God Bless you all, God Bless JFC

**Mr. Timothy Musyoki,
Marketing Manager, JFC Munene College of Health Sciences**
